GENERAL LITURGICAL GUIDELINES – Face coverings:

These Liturgical Guidelines are intended to assist Clergy and faithful in the reverent and joyful celebration of Holy Mass while maintaining the health and safety precautions offered through health and government authorities. It is by carefully observing the directives and precautions outlined in this document that the celebration of Mass, even with the limitations of restrictions now in place can take place prudently. We look forward to gathering together with all our people to safely celebrate the Eucharistic Sacrifice, but in the meantime we will follow these guidelines with diligence, using common sense and respect for others.

If there are difficulties maintaining any of the following directives, then Masses should be suspended.

FACEMASKS and SANITISING

Masses, Funerals, Weddings and Live-Streaming.

- For Clergy: Masks should be worn as you enter for Mass. They may be removed during the celebration of Mass, but are to be placed back on for the distribution of Holy Communion and at the conclusion of Mass as you process out.
- All present in the worship space –including musicians, technicians for live streaming, and cleaners and musicians, **MUST** wear masks at all times as per the DHHS Guidelines.
- Sanitiser must be used regularly throughout the Liturgy and celebrants must visibly sanitise before and after the distribution of Holy Communion.
- Communicants must sanitise their hands before receiving Holy Communion.
- Masks must be available. If anyone does not have one, or there is not one available, they cannot participate or enter the church.
- All hygiene and distancing regulations must continue to be met as per the general guidelines below

LITURGY OF THE WORD

- The reader may lower his/her mask for the readings. This applies as well for the Universal Prayer.
- This same direction is extended for a cantor (or singers where further number permit): when the cantor is singing, the mask may be lowered. It must be worn at all other times.

LITURGY OF THE EUCHARIST

- The hosts to be consecrated for the faithful should be placed on a separate Paten (or Ciborium) to the Paten holding the host that the priest will consume.

HOLY COMMUNION

The following information is designed to allow for the distribution of Holy Communion at Mass in a safe manner for both ministers and communicants. All liturgical norms that govern the ordinary distribution of Holy Communion are observed in these norms, preserving the integrity of the celebration and distribution of the Eucharist.

- All worshippers are to wear a face covering or mask throughout the celebration of Mass and the other Sacraments.
- Instructions on receiving Holy Communion should be given to communicants at the time of the Fraction Rite.
- A table with sanitiser should be made available for those receiving Holy Communion, who must sanitise before receiving.
- During the distribution of Communion, if the minister makes physical contact with the communicant, the minister will be required to sanitise his hand thoroughly. For such sanitisation to be possible, a table with hand sanitiser should also be placed in proximity to the minister distributing Communion.
- The Celebrant should direct congregants to receive Holy Communion in their hand by stretching out their arms with one hand flatly placed on top of the other,

then taking steps to the side to place the host on the tongue.

- In order to minimise the possibility of contact with droplets between the communicant and minister, the most acceptable way to accommodate the dialogue that occurs between them might be the following:
 - The minister is to wear his mask throughout.
 - The communicant comes forward to a point 1.5m metres from the minister, removes one side of their mask, and sanitises their hands at a sanitation station provided nearby.
 - The communicant then enters into dialogue with the minister: “Body of Christ”; “Amen.” from the 1.5 metre distance.
 - The communicant, stretching out their arms with one hand flatly placed on top of the other, receives the Blessed Sacrament then steps to the side to place the host on their tongue.
 - The communicant replaces their mask and returns to their seat.
 - If there is any contact with a communicant’s hand or breath, the Minister must sanitise before distributing Holy Communion to the next communicant.

- For the health and safety of all involved, it is exhorted that Holy Communion should only be taken in the hand during this stage of pandemic restrictions, and Clergy should not encourage otherwise. If a communicant presents to receive on the tongue, they must wait until all others who are receiving in the hand have done so. A minister must immediately sanitise his hand every time a communicant receives Holy Communion on the tongue, and before proceeding.

PLEASE NOTE: It is advised that when live-streaming, reception of Holy Communion is done off-screen/video.

It is recommended that you keep informed through the Department of Health and Human Services website for daily updates.
